

Alex Rivera

alex.rivera@example.edu | (555) 0100 | Halifax, NS

Skills

Languages: Python, TypeScript, SQL, Java

Frameworks: FastAPI, React, PostgreSQL, Docker

Practices: REST APIs, CI/CD, Test-Driven Development

Experience

Software Developer Intern January 2026 - Present

Northwind Analytics

- Rebuilt the nightly ingestion job to stream records instead of buffering them, cutting peak memory use by 60 percent.
- Added integration tests around the billing export.

Web Developer Intern Aug 2023

Lakeside Robotics

- Built an internal dashboard in React used by the support team.
- Migrated a legacy jQuery form to a typed React component.

Projects

Transit Delay Tracker 2025

- Collected live transit updates into PostgreSQL and charted the delays by route in a React dashboard.
- Wrote the ingestion as a scheduled job with retries.

Course Planner 2024

- Built a FastAPI service that checks degree requirements against a student's completed courses.

Education

Dalhousie University

Bachelor of Computer Science, expected 2027
